

GlassHome has come along way in the glass manufacture, conquering the Handmade area with variety of unmatched quality products, since we started back in 2016 we grow bigger and bigger to be one of the best Handmade glass factory in Egypt and Middleeast

It was the right time for us to expand beyond what we know and experienced in and into the field of automatic press glassware, combining our knowledge and techniques with the machines abilities to produce products that going to leave a mark in the market.

Building on the collection we had last year, we added some of the finest glassware we found around the world and nudge it a little with our own design team to fit the crieteria of our clients
